Profile

Software Engineering student at Riphah International University with comprehensive skills in programming, web development, and software design. Proficient in Python, Java, HTML5, and object-oriented programming, with practical experience in front-end development, UI/UX design using Figma, and software testing

Professional Experience

- | | |
|---|-----------------------------|
| Backend Developer, Code Alpha | 07/2026 – 07/2026 |
| <ul style="list-style-type: none">• Backend API Development: Designed and implemented RESTful APIs for web applications using Node.js and Express.• Database Management: Worked with MongoDB for data modeling, querying, and database optimization.• Server-Side Logic: Developed server-side business logic and middleware for request processing and authentication.• Collaboration & Deployment: Collaborated with the frontend team to integrate APIs and participated in deployment workflows. | |
| Software Engineer, Softech Digital Group | 10/2025 – 12/2025
Remote |
| <ul style="list-style-type: none">• Front-End Development: Developed the user interface for "Fit Kro," a fitness-focused application, utilizing React.js to create a responsive and interactive user experience.• UI/UX Design: Designed and developed a comprehensive Figma prototype for "Style Sathi," focusing on intuitive user flows and modern design aesthetics. | |

Education

- | | |
|---|---------------------------------------|
| Bachelor's degree, Computer Software Engineering, Riphah International University, Lahore | 10/2022 – Present
Lahore, Pakistan |
| Relevant coursework: Computer Programming, Web Development, Front-End Development, Problem Solving, Data Structures, Object-Oriented Programming, Software Development, Software Testing, User Interface Design | |
| Intermediate in Computer Science (ICS- Physics), Punjab College Zafarwal | 10/2020 – 08/2022 |

Skills

- | | |
|--|---|
| <ul style="list-style-type: none">• Python• HTML5 & CSS• Figma (UI/UX Design)• React.js• Javascript• Web Development• git/github• Flutter | <ul style="list-style-type: none">• C++• Data Structure & Algorithms• Front-end Development• Java• Object-Oriented Programming• Problem solving• Game Development |
|--|---|

Personal Projects

- | | |
|---|-------------------|
| SyncStay(Flutter) | 02/2026 – 07/2026 |
| Mobile hostel management app with matching, requests, payments, and role-based dashboards | |
| ILM Dost | 02/2026 – 07/2026 |
| Privacy-first AI learning platform with progress tracking, study analytics, scheduling, and voice support | |

Air Drawing Real-time hand-gesture drawing app with MediaPipe, shape correction, and letter recognition.	02/2026 – 07/2026
Traffic Racer 3D Unity traffic racing game with dynamic traffic, scoring, and garage system.	02/2026 – 07/2026
OS Simulation Implemented an operating system simulation platform in Java covering memory allocation, CPU scheduling, IPC, and distributed concept	02/2026 – 07/2026
SyncStay(Java) Developed SyncStay (Java) using Spring Boot, MySQL, Docker, and MVC architecture for hostel management and roommate matching	01/2026 – 07/2026
Vehicle HUB A React-based web application to sell/buy vehicles as well as their parts Technologies: React	01/2026 – 01/2026
Personal Portfolio Website Created a responsive personal portfolio website to showcase projects and skills. Implemented modern front-end development practices for optimal user experience.	05/2025 – 06/2025

Interests

- | | | |
|--------------|-----------------------|----------------------------------|
| • Technology | • Software Innovation | • Programming Challenges |
| • Web Design | • Game Development | • Mobile Application Development |

Certificates

Object Oriented Programing in C++ Coursera (2023)	Introduction to Software Engineering IBM (2023)	Data Structures UC San Diego (2024)
C for Everyone University of California, Santa Cruz (2023)	Game Development Zaff Institute (2022)
